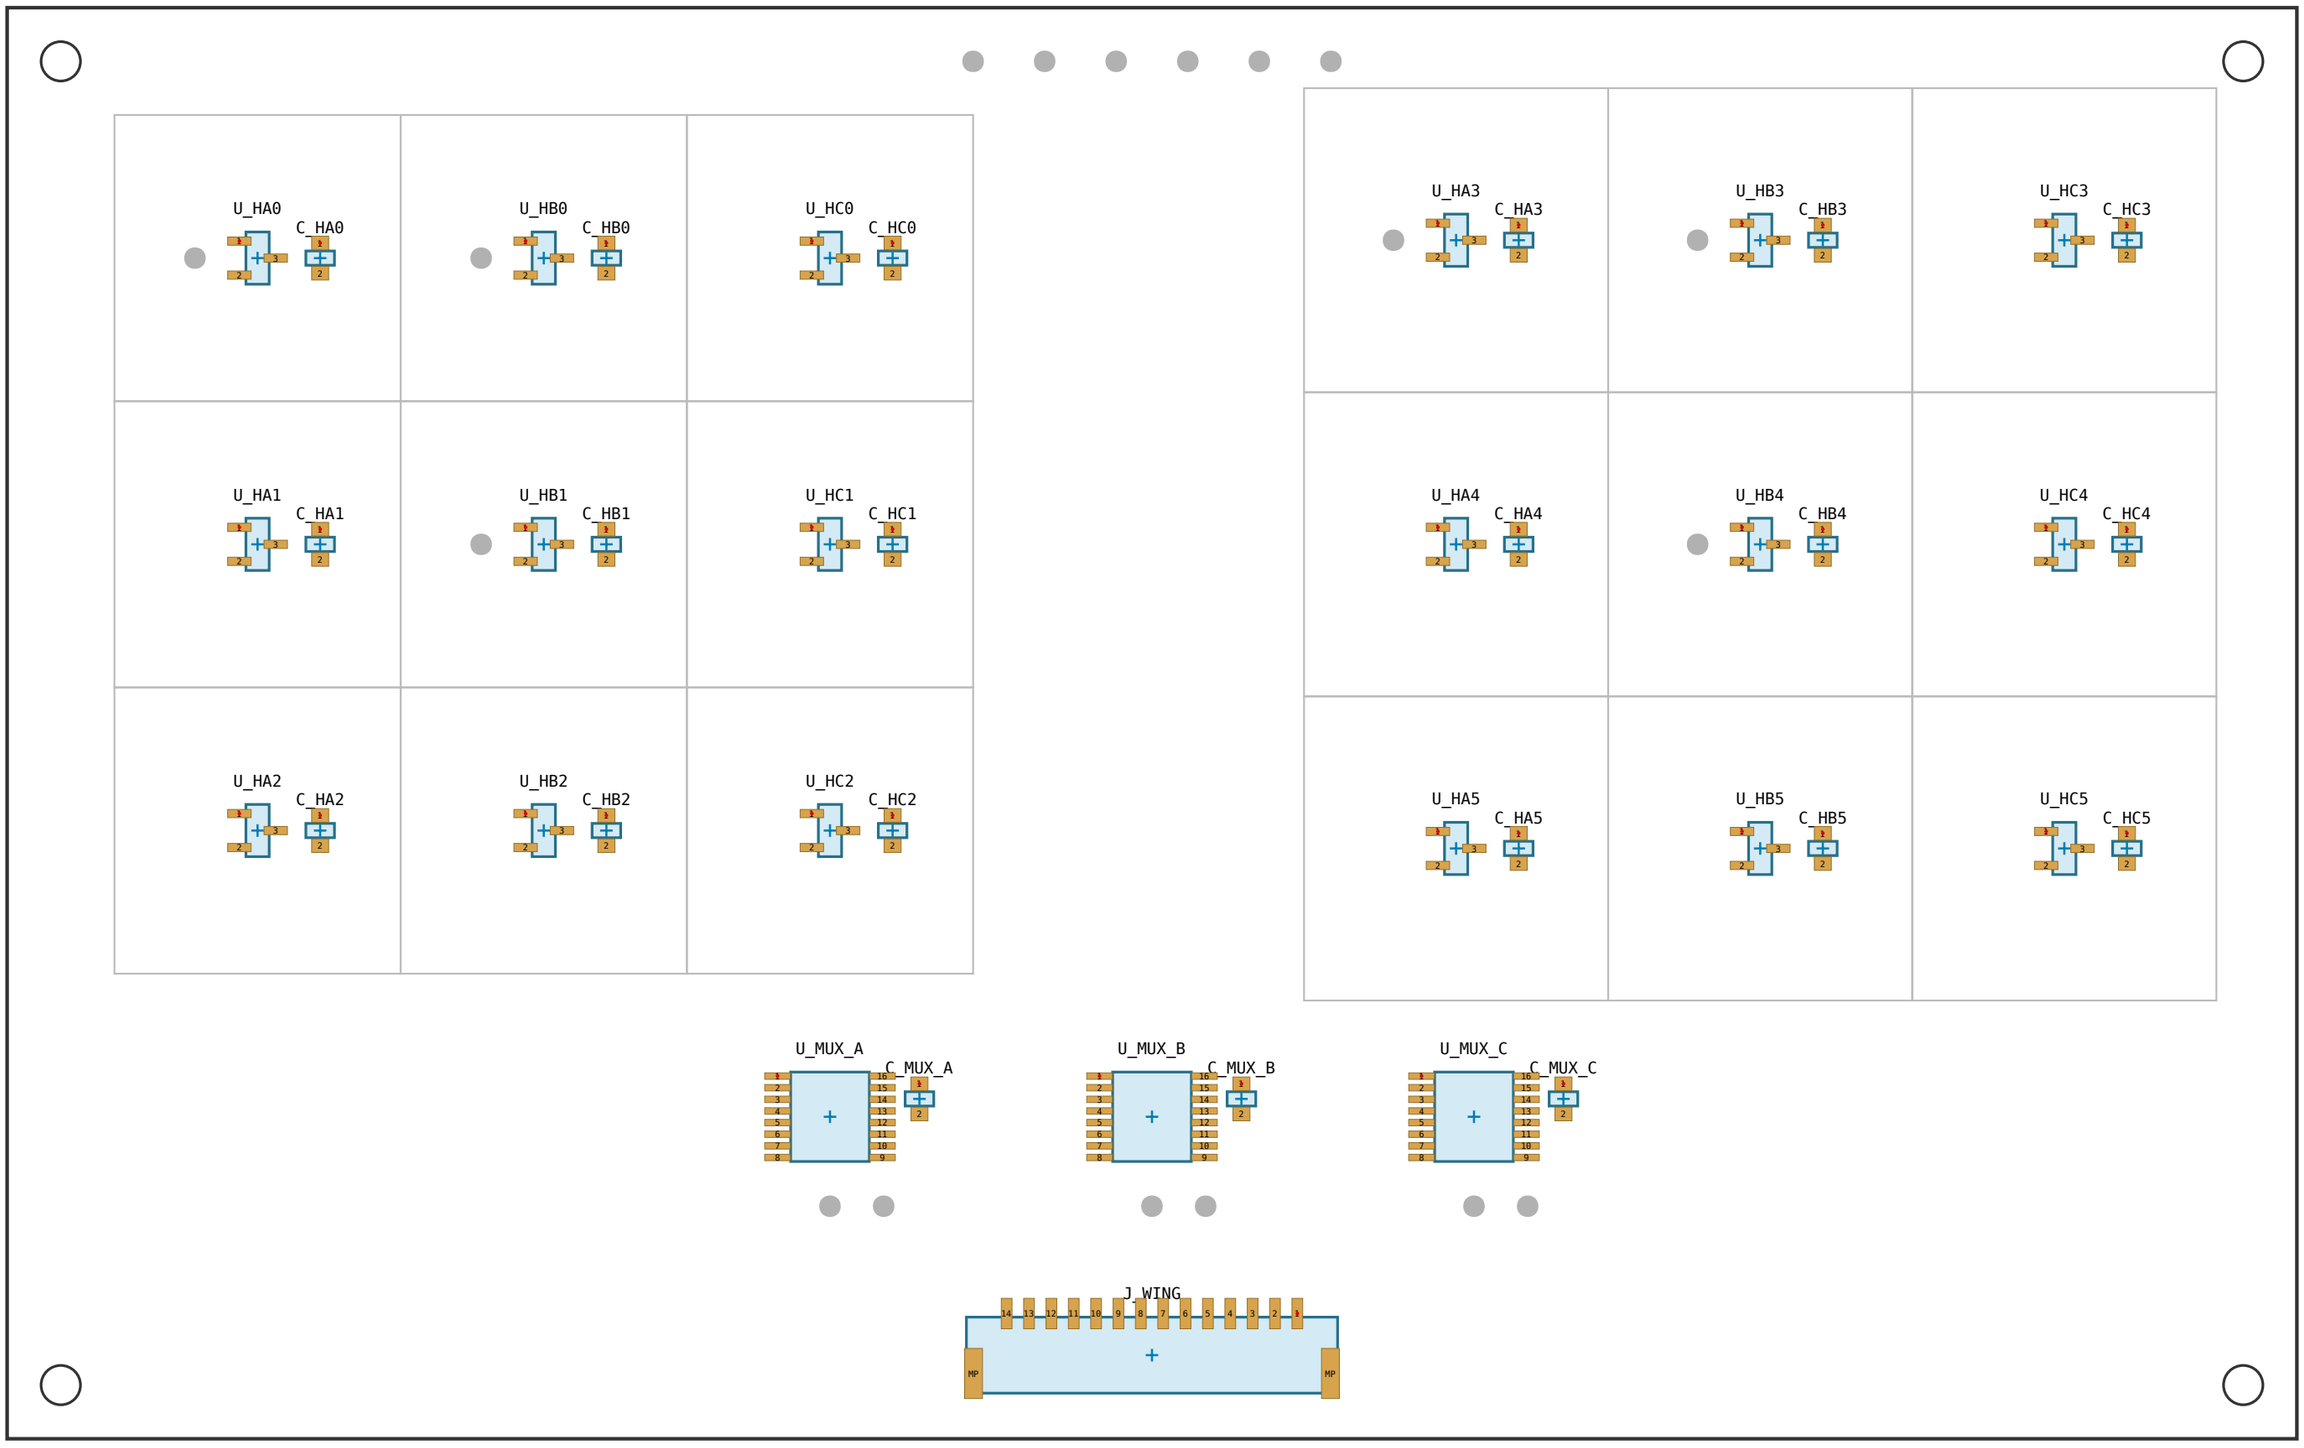
M1 MATRIX18 — TOP ASSEMBLY / 16mm + 17mm

Native copper pads + package bodies; red dot = pad 1; blue cross = CPL body centroid.

Review orientation against pad numbers; no bottom parts; units mm; not a switch mounting drawing.



CPL origin: lower-left board edge (KiCad 36,140), X right / Y up. All top rotations 0deg CCW.

GH14: row origin (100,133), body centroid (100,135.325); CPL (64,4.675)mm. Pin1 remains rightmost.

ALL 146 plated vias: epoxy fill + copper cap + plate over. Read FABRICATION.md before any release.
